Recommended Industries:

Name: (IT) Information Technology

Description: Do you like technology? Do you enjoy working with computer hardware, software, multimedia, or network systems? This industry includes careers related to the design, development, support, and management of hardware, software, Internet, multimedia, and systems integration services. Careers in the information technology industry involve working with computer hardware, software, or network systems. Most occupations in this industry typically require a bachelor's degree for entry. However, specific designations range from some college but no degree and moderate-term on-the-job training for computer user support specialists to a bachelor's degree and 5 or more years of work experience in a related occupation for computer network architects.

Name: Business Management & Administration

Description: Are you entrepreneurial? Would you enjoy a career that involves planning, directing and evaluating business functions essential to effective business operations? Careers in the business management & administration industry involve planning, oversight, and organizational tasks needed to run a business. More than half of these occupations typically require a high school diploma or equivalent, but specific designations range from less than a high school diploma and short-term on-the-job training for stock clerks and order fillers to a bachelor's degree and 5 or more years of work experience in a related occupation for those such as computer and information systems managers.

Name: Sales & Marketing

Description: Do you like to sell products or services? Are you friendly and outgoing? This industry includes careers in planning, managing, and performing marketing activities to reach organizational objectives. Careers in the marketing industry involve promoting and selling products and services. Many of the occupations in this industry typically require a high school diploma or equivalent; however, specific designations range from less than a high school diploma for models to a bachelor's degree and 5 or more years of work experience in a related occupation for occupations such as public relations and fundraising managers.

Recommended Careers:

Title: Computer Programmers

Description: Create, modify, and test the code, forms, and script that allow computer applications to run. Work from specifications drawn up by software developers or other individuals. May assist software developers by analyzing

user needs and designing software solutions. May develop and write computer programs to store, locate, and retrieve specific documents, data, and information.

Title: Software Developers, Applications

Description: Develop, create, and modify general computer applications software or specialized utility programs. Analyze user needs and develop software solutions. Design software or customize software for client use with the aim of optimizing operational efficiency. May analyze and design databases within an application area, working individually or coordinating database development as part of a team. May supervise computer programmers.

Title: Software Developers, Systems Software

Description: Research, design, develop, and test operating systems-level software, compilers, and network distribution software for medical, industrial, military, communications, aerospace, business, scientific, and general computing applications. Set operational specifications and formulate and analyze software requirements. May design embedded systems software. Apply principles and techniques of computer science, engineering, and mathematical analysis.

Title: Web Developers

Description: Design, create, and modify Web sites. Analyze user needs to implement Web site content, graphics, performance, and capacity. May integrate Web sites with other computer applications. May convert written, graphic, audio, and video components to compatible Web formats by using software designed to facilitate the creation of Web and multimedia content.

Title: Operations Research Analysts

Description: Formulate and apply mathematical modeling and other optimizing methods to develop and interpret information that assists management with decision making, policy formulation, or other managerial functions. May collect and analyze data and develop decision support software, service, or products. May develop and supply optimal time, cost, or logistics networks for program evaluation, review, or implementation.

Title: Market Research Analysts and Marketing Specialists

Description: Research market conditions in local, regional, or national areas, or gather information to determine potential sales of a product or service, or create a marketing campaign. May gather information on competitors, prices, sales, and methods of marketing and distribution.

Title: General and Operations Managers

Description: Plan, direct, or coordinate the operations of public or private sector organizations. Duties and responsibilities include formulating policies, managing daily operations, and planning the use of materials and human resources, but are too diverse and general in nature to be classified in any one

functional area of management or administration, such as personnel, purchasing, or administrative services.

Title: Management Analysts

Description: Conduct organizational studies and evaluations, design systems and procedures, conduct work simplification and measurement studies, and prepare operations and procedures manuals to assist management in operating more efficiently and effectively. Includes program analysts and management consultants.

Title: Personal Financial Advisors

Description: Advise clients on financial plans using knowledge of tax and investment strategies, securities, insurance, pension plans, and real estate. Duties include assessing clients' assets, liabilities, cash flow, insurance coverage, tax status, and financial objectives.

Title: Bus Drivers, Transit and Intercity

Description: Drive bus or motor coach, including regular route operations, charters, and private carriage. May assist passengers with baggage. May collect fares or tickets.

Title: Bus Drivers, School or Special Client

Description: Transport students or special clients, such as the elderly or persons with disabilities. Ensure adherence to safety rules. May assist passengers in boarding or exiting.

Title: Database Administrators

Description: Administer, test, and implement computer databases, applying knowledge of database management systems. Coordinate changes to computer databases. May plan, coordinate, and implement security measures to safeguard computer databases.

Title: Network and Computer Systems Administrators

Description: Install, configure, and support an organization's local area network (LAN), wide area network (WAN), and Internet systems or a segment of a network system. Monitor network to ensure network availability to all system users and may perform necessary maintenance to support network availability. May monitor and test Web site performance to ensure Web sites operate correctly and without interruption. May assist in network modeling, analysis, planning, and coordination between network and data communications hardware and software. May supervise computer user support specialists and computer network support specialists. May administer network security measures.

Title: Computer and Information Systems Managers

Description: Plan, direct, or coordinate activities in such fields as electronic data processing, information systems, systems analysis, and computer programming.

Title: Computer Systems Analysts

Description: Analyze science, engineering, business, and other data processing problems to implement and improve computer systems. Analyze user requirements, procedures, and problems to automate or improve existing systems and review computer system capabilities, workflow, and scheduling limitations. May analyze or recommend commercially available software.

Title: Graphic Designers

Description: Design or create graphics to meet specific commercial or promotional needs, such as packaging, displays, or logos. May use a variety of mediums to achieve artistic or decorative effects.

Title: First-Line Supervisors of Office and Administrative Support Workers

Description: Directly supervise and coordinate the activities of clerical and administrative support workers.

Title: Secretaries and Administrative Assistants, Except Legal, Medical, and Executive

Description: Perform routine clerical and administrative functions such as drafting correspondence, scheduling appointments, organizing and maintaining paper and electronic files, or providing information to callers.

Title: Office Clerks, General

Description: Perform duties too varied and diverse to be classified in any specific office clerical occupation, requiring knowledge of office systems and procedures. Clerical duties may be assigned in accordance with the office procedures of individual establishments and may include a combination of answering telephones, bookkeeping, typing or word processing, stenography, office machine operation, and filing.

Title: Power Plant Operators

Description: Control, operate, or maintain machinery to generate electric power. Includes auxiliary equipment operators.
